

## TESTIMONIAL

### GM, South Australia, owners of Ash

Ash's temperament is good natured, always happy, and he loves being around people.

The crate training was extremely helpful and he continues to sleep in his crate every night – as soon as he sees me heading for bed he races up the corridor and straight in.

The extra resources and advice – on Natural Feeding, Crate Training & Dog Listening were very helpful.

I have implemented Dog Listening principles but can't seem to get the whole families head around the principles so he does jump up on some people still..!

Have introduced Natural Feeding principles absolutely. I work next door to a butcher shop and they have my order ready once a week – both our dogs look healthy and happy and just love their food – our Lab used to have a slight itchy skin condition despite having mostly raw meat diet previously and it has completely gone since being fed a completely natural mix.

Oh My God, Merry's before and after sales service was fantastic!

I've had dogs all my childhood and adult life and while I've loved them all, I've never had so many other people comment on what a beautiful dog he is and of course, I agree!

I would absolutely recommend Merry as a breeder for others seeking a Border Collie.

I loved the pre-purchase screening process - nothing worse than people purchasing breeds that don't suit their home or lifestyle. I loved being able to see both parents and how the other puppies have turned out.

I am happy to provide email information direct to any potential new owners if they would like to hear from a present owner.

Please do not hesitate to contact Merry on 0417 832 551 for any additional information.
